 Hot Air Ballooning South Africa
www.hotairballooning.co.za

INCLUDED :

- A hot drink and biscuits at the launch site; whilst the balloon is being inflated.
- A 45 - 60 minute hot air balloon flight
- Champagne and orange juice at the landing site
- Breakfast after the flight at Tala Restaurant
- A certificate to commemorate your hot air ballooning adventure

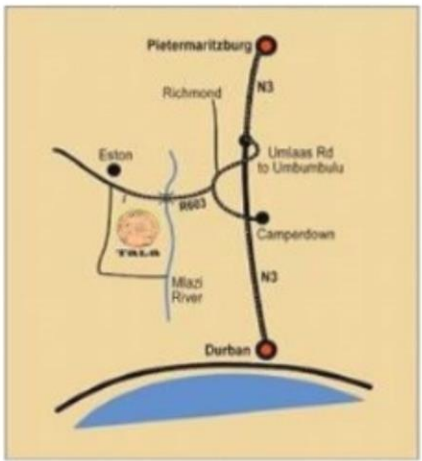

We fly at sunrise; besides being the best time of the day, winds are at their calmest and the air at its coolest to make for a pleasant and safe flight. The only control the pilot has is up or down; you drift with the wind so there is little or no turbulence during flight, it's just you and the elements, so we never know how far we will fly. Game viewing is just like a game drive: sometimes we see everything and other times we see very little, but one always has the experience of hot air ballooning. The pilot varies the height he flies at, from treetop height to about 1000 feet (300m) above the ground. On finding a suitable field to land in, the crew deflate the balloon whilst you enjoy a celebratory glass of champagne. We then return to Tala Restaurant by road for breakfast, where a souvenir certificate is awarded to each guest. The total duration is about 4 hours from the time we meet until after breakfast.
